We are reliable metal manufacturing company, which is established in 1998.

We do steel laser cutting, sheet metal and pipe bending, punching, welding, drilling, powder coating and other operations related to metalworking.

We see every new project as an opportunity to demonstrate our possibilities, to strive for improvement, professionalism, value creation for our clients and partners in most professional, optimal and innovative way. It is also very important for us to provide excellent working conditions for our employees.

In 2019 we received the award “Strongest in Lithuania” which shows the facts that we are on the right way. In 2020 and 2021 we were among the 7% most reliable and profitable “Lithuanian TOP” companies, selected by strict criteria of company “Rekvizitai.lt”. This award is a proof that we develop a transparent business, support the company’s financial reputation, competitiveness, responsibility, respect for our partners, clients and employees.

Our aim in the future is to become a successful international company, which pays even more attention to the employees well-being and to sustainable nature with its resources. By choosing us, you can expect stability, reliability, successful and long-term cooperation!
